Overview - Adani Group

The Adani Group is a leading global first-generation business group with a strong growth record and enormous future potential and it is one of India's largest integrated infrastructure conglomerate.

The success of the Group is due to its strong governance, strict regulatory compliance, sustained performance, and solid financials that balance growth and deleveraging.

Over the course of the past three decades, the Adani Group has developed assets that span key established and emerging sectors of the Indian economy: ports, airports, logistics, road, rail, water, defence and aerospace, solar, wind and hybrid energy, power generation, transmission and distribution, LNG and PNG terminals, city gas and piped gas distribution, food FMCG, data centres, digital services, undersea cables, industry cloud and super app, AI labs, mining, metals, minerals, cement, petrochemicals, and media.

The Adani Group has withstood the test of time and has a track record of tremendous growth in spite of the macroeconomic challenges and others like global disruptions caused by the COVID pandemic and the Russia-Ukraine war.

Growth with Goodness

Overview - Infrastructure Sector

Infrastructure development has been the main pillar of global socio-economic development over the last several decades. In advanced countries, the focus has been on upgrading of infrastructure; while in the developing countries, the thrust has been on creation of basic infrastructure.

The infrastructure sector includes various verticals such as, but not limited to, roads & bridges, ports, urban infrastructure, realty, railways, airports, power, mining, oil & gas, renewable energy, social infrastructure, etc.

To grow and sustain the momentum of Indian economy over a longer period in future, the infrastructure sector needs to accelerate its long-term growth rate. For this purpose, this sector will require not only huge number of investments but also a large number of highly skilled managers for efficient implementation and operation of huge infrastructure projects. Currently, there is a large gap between the demand and the availability of trained managerial resources with adequate knowledge and specialization in infrastructure management. With sustained high growth of Indian economy, this gap is going to widen in the future.

Infrastructure Sector

Paving the way for Economic Growth

According to the World Bank estimates, the total global infrastructure spending will be around **US\$ 2 trillion** annually over the next decade. As per Indian Infrastructure Sector in India Industry Report, **India plans to spend US\$ 1.4 trillion** on infrastructure between 2019 to 2023 which is predicted to boost the expansive growth of the sector.

Overview - Adani University

With a vision to educate and empower the youth, encourage transformative research that focuses on real-world problems, and contribute to global sustainability via excellence at all levels, the Adani Group – one of India's largest transport and utility infrastructure conglomerates with inspiration from the infrastructure visionaries of India – Shri Gautambhai Adani and Smt. Pritiben Adani– established the Adani University in India's enterprising State of Gujarat.

With the major thrust on education for transformation, Adani University is engaged in building a state-of-the-art futuristic institution for education, training, and research that shall disseminate managerial and technological knowledge of the highest value through impactful industry engagement and multidisciplinary research.

Five thrust areas, Infrastructure, Technology, Healthcare, Energy, and Defense are the focus of university programs, while the approach is broad and complementary. Adani University is a research-intensive institution that seeks to address and impact real-world problems. Research, formal and non-formal programs for doctoral, undergraduate, and post-graduate degrees, and certification programs at the intersection of disciplines are offered at the University.

From the Provost's Desk

Greetings to the Infra-Professionals of Tomorrow !

The new India which aspires to become the 3rd largest economy in the world, has been constantly striving for world-class infrastructure in the country. Conventional wisdom as well as economists have shown time and again that investment in Infrastructure development always drives the economy of a nation and enhances the GDP. Ever since India's independence, the nation has accomplished significant progress through its successful green, white, and industrial revolutions, followed by the growth of the service sector and entrepreneurship amongst the youth. Now, for sustainable development, the country has decided to focus on all-inclusive infrastructure growth. The growth of this sector can only be enhanced when the youth with their skills and training become a part of this dream and turn it into a reality!

The Adani University draws on the inspiration and successes of the Adani Group, India's largest integrated infrastructure conglomerate. We have a shared vision to contribute to Nation-Building by creating world-class ports, airports, railways, and energy projects. With the experience and expertise in creating large-scale infrastructure projects, Adani University aims to create skilled human capital to take on supervisory and managerial responsibilities in the infrastructure and allied sectors across the world. Adani University, by attracting the talent pool who aspires to create innovation and lead the world is offering the **MBA (Infrastructure Management)** program for a select few who intend to make a career in India's growth story in the infrastructure sector.

The **MBA (Infrastructure Management)** program not only provides students with an academic curriculum that is seamlessly integrated with industry requirements and applied research but also creates the opportunity to work on the ground during their internship to validate their theoretical concepts in real-life situations. The program is popular also because the industry practitioners alongside our acclaimed faculty give students insights and case studies of popular success stories and prepare them for leadership roles in a complex and dynamic corporate setting of the infrastructure sector.

I am sure you would find the opportunity exciting and become a part of India's growth story!

A photograph of students in a library. In the foreground, a young woman with long dark hair and glasses, wearing a maroon Levi's t-shirt, is looking down at a book. To her left, a young man with a beard, wearing a light pink polo shirt, is also looking down. In the background, another student is visible, and there are bookshelves filled with books.

MBA
(Infrastructure Management)

Creating Tomorrow's Infra Professionals

Faculty of Management Sciences

The Faculty of Management Sciences (FMS) program is designed to provide students with the theoretical concepts and practical applications used in today's dynamic business environment. In addition, the FMS program prepares students with the skills they need to become successful managers in a range of industries. The faculty also provides opportunities for students to gain experience through internships, project work and placements.

The Faculty of Management Sciences (FMS) is committed to providing quality education that prepares our graduates for successful careers within the global business community.

Projects

MBA (Infrastructure Management)

MBA (Infrastructure Management) is a two-year full-time program for those passionate about pursuing a career in Infrastructure. The electives have been designed through our continuous evaluation methodology from our parent group, alumni, and industry connections. In addition to some core courses, students round off their degree with multiple specialized electives, such as Transport, Energy & Real Estate & Urban Infrastructure.

In the first year, students complete a core curriculum that provides a thorough, integrated grounding in management & infrastructure essentials. At the same time, they get exposure to a healthy dose of site visits, independent projects, and finally, end with a summer internship.

Students round off their degrees in the second year with umpteen elective courses.

Program Uniqueness

- Hybrid program combining general management principles with specialized focus on infrastructure sector
- Gain extensive sector-specific knowledge through major specializations, while also developing a deep understanding of functional domains through minor specializations
- Real World Exposure through Capstone Projects
- Industry Focused Curriculum
- Mentorship from Acclaimed Faculty and Industry Practitioners
- Stellar Placements
- Promoted by the Adani Group, India's leading conglomerate for integrated infrastructure

- Organisational Behaviour
- Marketing Management

Trimester 2

- Sales and Distribution Management
- Business Analytics
- Managerial Communication-II
- Quantitative Analysis
- Corporate Finance
- Infrastructure Law and Regulations
- Project Management
- Workshop - I

Trimester - 3

- Enterprise Risk Management and Analytics
- Strategic Management
- Enterprise Technology Management
- Supply Chain and Logistics Management
- Business Research Methods
- Public Private Partnership
- Carbon Neutral Enterprise and ESG
- Workshop -II

Core Courses

- Project Appraisal and Social-Cost-Benefit-Analysis
- Workshop - III

Sectoral Electives

| **Urban and Real Estate Management**

- Real Estate Policy and Economics
- Urban Infrastructure Management
- Real Estate Business and Construction Management

| **Transport Management**

- Transport - Policy, Economics & Management
- Managing Airport Business
- Port & Shipping Management

| **Energy Management**

- Energy - Global Business and Policy
- Fossil Fuels
- Global Carbon Finance

Functional Electives

| **Business Development**

- Marketing Research and Information Systems
- Retail Business Management

| **Digitalization and Analytics**

- Disruptive Technologies & Digital Transformation
- Customer-Centricity in the Digital Age

| **Operations and Supply Chain**

- Warehouse Management
- Supply Chain Analytics

| **Finance**

- Financial Control and Performance
- Infrastructure Finance

Core Courses

- Business Consulting and Client Management
- Workshop - IV

Sectoral Electives**Urban and Real Estate Management**

- Urban Development Planning and Governance
- Real Estate Finance & Valuation
- Law and Regulations- Real Estate and Urban Infrastructure

Transport Management

- Rail and Road Transportation
- International Trade Documentation
- Cargo and Multi-Modal Logistics Management

Energy Management

- Energy Management
- Renewable Energy
- Emerging Technology in Energy

Functional Electives**Business Development**

- Services Marketing
- Digital Marketing and e-Business

Digitalization and Analytics

- Deep Tech and Digital Business
- Innovation and Change Management

Operations and Supply Chain

- Procurement Management
- Operations Planning and Control

Finance

- Financial Analytics
- M&A and Corporate Restructuring

Core Courses

- Capstone Project

Skill Enhancement & Online Courses (Across 2 years)**Industry Seminar courses**

- Industry Seminar course

Workshop courses

- Financial Modelling
- Contract Management
- HR Analytics
- Public Policy and Business
- Six Sigma
- Design Thinking

Online courses

- A list of NPTEL courses and/or other recognized sources will be shared for completion of 2 or 3 courses.

Life @ Adani University

I Love

adani
University

I choose because of the **PROGRAM UNIQUENESS**

“

Initially, I was inclined to join this program as it was recommended by my friend but later I realized it's more than a generic program. The real beauty of this program is it made you aware of the practical implications of all concepts of management in the Infrastructure Industry from the beginning. The immersion program was a big help, followed by two years of learning with practical exposure through infra labs, site visits, simulations, case studies, and more.”

Ms. Juhi Gandhi

PGDM (Infrastructure Management), 2020-22

Placed at Adani New Industries Limited | Deputy Manager

I choose because its **LIMITLESS**

“

When talking about our lives - we always center it around the categories of school, college, work, etc. For me, life has always been what's outside of these categories. It is my journey of defining my growth and my strengths. And these two years helped me identify my strength and nurture me to the next level.

”

Ms. Barkha Laddha

PGDM (Infrastructure Management), 2020-22

Placed at Vishakha Group | Executive Assistant

I choose because of the **EXPOSURE**

“

The exposure level which we received in these two years has added to my knowledge. Live projects to work on, directly understanding the challenges & opportunities from Industry experts from global level scenarios to local cases. The adaptation of policies into practice. It helped to elevate my thoughts which were unexplored and unseen earlier.

”

Mr. Avinash Yadav

MBA (Infrastructure Management), 2022-24
Placed at EY | Associate Consultant

I choose because of the VIBE

“

Through this program, I learned, how It's all about creating value, sustaining the value, and being creative irrespective of the industry. Also, the campus vibe adds to your energy. Activities like football, cricket, badminton and even participating in cultural fest rejuvenate the entire environment, also spending time in the canteen and discussing projects and presentations just helps to offload all the stress. Can say it's like a home away from home.

”

Ms. Kanika Agarwal

PGDM (Infrastructure Management), 2020-22

Placed at Adani Airport Holding Limited | Management Trainee, HR

Admission Eligibility

- Candidates must have a valid national-level entrance test-score as (CAT / XAT / CMAT / GMAT Preferred). Candidates may complete and submit their application without test-score, too. However, they will be required to submit the test-score as and when the test results are out.
- Candidates must hold a bachelor's degree with minimum 50% marks (45% for reserved category candidates) or equivalent qualification CGPA from any recognized university in India and abroad.
- Candidates in their final year of graduation are also eligible to apply.
- Candidates with work experience: Though prior work experience (paid and full-time employment after completion of graduation) is not mandatory for a candidate seeking admission to MBA programs, candidates with relevant work experience may have an upper edge in the selection process.
